EXPERIENCE

Serve Information Technology, Bloomington, IN —*Cybersecurity Intern*

August 2021 - PRESENT

Developed cybersecurity solutions for local businesses and non-profits, providing owners assurance that their websites were safe and reliable.

Audited various website and technology solutions, giving constructive and feedback for security and design.

Designed a "Security Tip Sheet" for clients, ensuring that security solutions would be integrated and understood by clients.

Indiana University Food Services, Bloomington, IN — *Food Service Site Manager*

August 2021 - PRESENT

Foster a friendly and cooperative service experience for all patrons, resulting in many returning customers and successful employee retention.

Assist fellow staff with chores and duties, creating a work environment where people rely on one another and feel like a team.

WalMart Corporation, Mishawaka, IN — *Overnight Stocker*

May 2021 - PRESENT

Work independently within various assigned departments performing moderate to heavy labor loading goods to display shelves appropriately.

Serve Information Technology, Bloomington, IN —*Donor Development Intern*

January 2021-August 2021

Consulted with a team of donor specialists to develop programs that attracted donations, and allowed for the expansion of programs and staff.

Demonstrated self-reliance and leadership by conducting prospect research and utilizing data to suggest new retention strategies.

Indiana University Food Services, Bloomington, IN — *Food Service Worker*

January 2020 - August 2021

Prepared food for both students and staff at Indiana University, providing a necessary service within my community.

PROFESSIONAL SUMMARY

I am an energetic, goal-driven, and highly motivated leader who confidently adjusts to change and maintains a flexible and approachable demeanor with those around me. I am transparent, honest, and communicate effectively.
